The Inaugural Antique Single Gear Australian Event

We are planning yet another Criterium around the block of any bike older than 30 years with a single gear. Similar to the Penny farthing a half hour event with the last two laps flat out. Again we have concerns for our potholes but with care we hope their heritage potential will not be lost.

Kids 2 lap challenge

Any child under 18 can enter the 5 lap challenge this year for a run around the block. Any bike, any condition and the potholes can take their chances.

Kids Ballance Bike Event

Bikes are provided or bring your own

Allcomers Challenge

Adaptive, Recumbent or other bike types

Ride Dungog will be hosting several events at the Common including an adaptive riding challenge. Check out details on <https://ridedungog.org> Also an Adaptive Criterium in town.

And More

There will be a family ride along Fosterton Road again this year. Ride with all the family in a safe ride with muffins at the river. The Alison Road ride to Thalaba Church with jam and scones will be on again this year but the ride to Bandon Grove has had to be dropped to allow us to include the new events above. We will include the Criterium again and the Friday night Kids and Cobwebs ride will be on to raise money for Dungog Primary Schools.

Prizes and awards will depend upon entries received. Dungog Rotary are keen to host the best Pedalfest ever and celebrate a greater than 30 year event. Get involved, come along and watch, check it out on www.pedalfest.org.au
